**AUSTRALIA IS THE RICHEST COUNTRY
ON EARTH - YET OUR WELFARE SYSTEM
CREATES POVERTY**

Job-seekers, students, single parents, and others are forced to survive on payments that are TOO LOW to meet their needs.

There is little support to help unemployed people find work – and NOT ENOUGH jobs to go around.

"Work For The Dole" is coming back, which punishes people and forces them to work for LESS THAN minimum wage.

Formed in 2013, the Anti-Poverty Network exists to unite people against welfare cuts from both sides of politics and to struggle for a dignified life FOR EVERYONE.
